

**Report of My Work on Legislative Council  
Office of Hon. Dr. Edward Yiu Chung-yim  
21 February to 20 March 2017**

**1. LEGISLATIVE COUNCIL HIGHLIGHT**

Question

Mar 2017 – Air pollution in Hong Kong

- The Environmental Protection Department (“EPD”) has indicated earlier that days with high-level air pollution (i.e. the days on which the Air Quality Health Index reaching 8 or above) were seen in 11 months of 2016. Also, over 80% of such days of high-level air pollution were caused by pollutants brought by tropical cyclones and from the Pearl River Delta Region. Some environmentalists have pointed out that such a remark indicates that the authorities have overlooked the responsibility to reduce the local sources of air pollution.
- This Question was asked to obtain data from the Government, please find the details at: [http://www.legco.gov.hk/yr16-17/english/coun-mtg/agenda/cm20170322.htm#q\\_11](http://www.legco.gov.hk/yr16-17/english/coun-mtg/agenda/cm20170322.htm#q_11)

**2. HOUSE COMMITTEE & SUBCOMMITTEES**

Finance Committee (Raised proposal with Eddie Chu Hoi-dick to remove controversial projects from a bloc of 9,000 government funding requests – denied by the chairman)

**3. ACTIVITIES**

West Kowloon Cultural District

22 Feb 2017: Submitted a proposal on the establishment of Palace Museum to the WKCD, stating questions on some issues, summary as below:

- The authority failed to comply with WKCD ordinance, which state that consultation should be carried out before establishing the museum
- The decision to establish Palace Museum is against the intention of Town Planning Board approval
- The establishment affect the overall planning of the WKCD
- There may be conflict of interest regarding the donation from HK Jockey Club
